Grade Level: 6 - 12

Customer Reviews

Not exactly what we were looking for, but it was better than nothing. We were expecting it to be a little more challenging. My daughter attends a Spanish Language immersion school (just finished her 3rd year) and we wanted her to have a workbook to help her keep up her vocabulary over the summer since neither my spouse nor I speak Spanish. This is a VERY basic Spanish workbook. Would be good for beginners.

I bought this for my 10 year old who's been showing an interest in learning Spanish, she is doing very good considering it's for high school. This book is very good for your child, even I'm learning a thing here and there, the answers are at the back so I can check her work. I highly recommend this

book, very straight forward work that teaches a lot

I love these workbooks they can be easily used as a supplemental material, work on your own workbook , and teacher led Spanish instruction.

My daughter is using this for home school and has already developed a basic grasp of elementary Spanish from using this workbook in conjunction with flashcards. Great little book!

this book will help me retain information already learned because I have very little chance to speak with spanish speakers.

I am using this in our home school for my high-school aged daughter who is studying Spanish. I find the book to be a very good reinforcement of what she has learned already. It has very simple instructions and the short lessons.

I am 36 years old and decided to teach myself Spanish. I got this book so I could start at the beginning and I am glad I did. Yes it is an elementary level workbook but that is where I needed to start. I did get several different workbooks like this and it did get a little boring going over the same things but it was also really good review and I am glad that I got these.

This is a great book! I have been using it with my 7 year old to keep her practicing her Spanish. It is great for learning verbs.
