Zodiac Starforce: By The Power Of Astra

Synopsis

They're an elite group of teenage girls with magical powers who have sworn to protect our planet against dark creatures . . . as long as they can get out of class! Known as the Zodiac Starforce, these high-school girls aren't just combating math tests. They're also battling monsters--not your typical afterschool activity! But when an evil force from another dimension infects team leader Emma, she must work with her team of magically powered friends to save herself--and the world--from the evil Diana and her mean-girl minions! From Kevin Panetta (Bravest Warriors) and Paulina Ganucheau (TMNT: New Animated Adventures, Bravest Warriors), this super-fun and heartfelt story of growing up and friendship--with plenty of magical-girl fighting action--delivers the most exciting new ensemble cast in comics! Kevin Panetta writes Zodiac Starforce. He has also written short stories for the Bravest Warriors comic book and the educational anthology, Wild Ocean. Kevin lives in Washington, DC and is pretty sure he saw his house in the new Captain America movie. You can find links to his other writing at: kevinpanetta.tumblr.com. A fun, gorgeous book that pays homage to the Magical Girl genre in a sincere way. Kevin's writing is heartfelt and funny, and Paulina's art is absolutely gorgeous. The perfect mix of teen drama with plenty of action and wicked battle scenes. If you're a fan of Buffy, Sailor Moon, or Powerpuff Girls

this comic is right for you.

I had never read this comic book series before and figured I would give it a try. It reminded me very much of Sailor Moon but with the Zodiac signs. It also reminded me of Jem based on the girls fighting other girls, trying to figure out who they are, etc storyline. It's pretty much a combo of 1980s/1990s anime and girl power cartoons. Perfect for both young and old, and it's one that doesn't seem cheesy either. It's spot on for girl power and empowering girls to be who they are, while telling a wonderful story.

I cannot express how much I enjoyed this comic! I'm a pretty big fan of all things magical girl related and this was such a nostalgia trip in every good way. The story was simple, but the characters had a lot of depth and variety to them. I can't wait to read more and get to know these characters. Can we get more of the Victorian Zodiac Starforce? Please? ;) The art is also amazing! Great character design, color work and details. The art definitely fit the tone of the story, working together perfectly. I can't praise this book enough. I don't see a lot of stories like this these days and I plan to keep supporting this book in the future!

Such a beautiful love letter to the romantic cartoons of the 90s, this book spins the magical girl genre in a refreshing light. Completely full of complex, interesting female characters with lots of queer and POC representation, this book is a great read and a delight to look at. Would definitely recommend to old fans of the genre as well as newcomers! ☺

I love the issues Of Zodiac Starforce but I absolutely love this volume! I get to read all of those issues in one and preserve them. Zodiac Starforce is the best magical girl comic series ever! I love the plot, the character development, and the art! I highly recommend this to any girl who love magic and girls who kick butt!

This series is so amazing and fun, really great for readers of all ages, and those new to comics!! I hope you'll give it a try, it's worth every penny!!

This book is candy colored pure goodness. What's not to love about a diverse group of best friends tasked with saving the planet? Can't wait for more!

Magic, girls who kick butt, diverse romance and a fresh take on the magical girl genre! Good for all ages, but probably best for a young adult or young twenty's audience. I'll be keeping up with this series for sure! Plus my first book came with severe denting on the back cover and I was given a new copy! Thanks, ☺
