Customer Reviews

5 Stars for the decision, but reviewing a Supreme Court decision on would just be silly. You either agree with it or you don't. My 1-star review is for the fact that somebody is charging money for a public document that is available for free on the Supreme Court website (from which this version was downloaded and scanned) and on any number of other websites, including Cornell's. Don't waste your money paying for official documents that your government makes available to you for free.
