Synopsis

This guide is designed for optimal navigation on eReaders, smartphones, and other mobile electronic devices. It is indexed alphabetically and by category, making it easier to access individual articles. Articles feature information about attractions, landmarks, districts, transportation, cultural venues, dining, history and much more. Addresses, telephones, hours of operation and admissions information are included where possible. The guide is complemented by clearly marked maps that are linked to city attractions. This travel guide also features a Cape Town itinerary with our suggestions for your travel route. Itineraries include links to individual attraction articles. **NEW FEATURE:** Many attraction articles now include links to Google Maps. On a dedicated electronic reader with a slow connection and a primitive browser, Google Maps will display the attraction on the map along with metro stations, roads, and nearby attractions. On an internet-enabled device such as the iPhone and the iPad, Google Maps will even show you the route from your current location to the attraction you want to go to. With this travel guide you can turn some eReaders into audio guides. For example, on the Kindle, just open an article and click Shift+SYM to activate text-to-speech. Put the speaker on the back of the Kindle against your ear and enjoy your virtual travel companion. Press Spacebar to pause/resume text-to-speech. All travel guides in the Mobi Travel series are only \$4.99 or less. Search for any title: enter mobi (short for MobileReference) and a keyword; for example: mobi Paris. Customer Reviews

This was an excellent guide that was extremely helpful during my month-long trip to South Africa. Beautiful photographs, excellent travel advice, and overall a very informative guide. My trip started off in Cape Town and then I visited about a dozen national parks, all of which were covered in this guide. Thanks for this!

...how he got any benefit out of this publication as it is possible I am missing something essential, but at this point it won't even load anymore so that wouldn't help. I spent more than an hour trying to make sense of it - click here, you go there, and then you can't get back, the in-stream maps even on my gigantic droid X are too small to read and the links to maps don't work most of the time, all the accommodation links are to tripadvisor which just takes you to tripadvisor with nothing filled in, no advantage there, etc. I would say more if it would load so I could be more specific. I want my four bucks back! Anyone know how to make that happen?!
