and sudden loss of interest.

Synopsis

The MANipulator Manual: Keep Your Man Interested and Begging for More Without Playing Games

Let me start off by explaining I am in no way talking about the sexual act. F*ck him in this case is not physical, it's mental. So many women get in trouble in their love lives, and 99.9 percent of that trouble could have been avoided if they'd said, "Well, f*ck him! a bit more often. Too many women are way too nice and compliant to their men, especially when these men don't deserve that kind of treatment. And yet, every woman I've ever met tries to not be needy or wear her heart on her sleeve. She simply wants to protect her feelings. Nevertheless, most women I've coached have had men seem very interested only to disappear suddenly. These women are left standing in the dark. Once the guy vanishes, they often find out it's easier to get the President of the United States on the phone than the man who seemingly really liked them...just not enough to stick around. This should stop. I, as a dating coach and author of books for women who want to get men, cannot take it anymore. You deserve better. This is not your fault. It's his! He needs to learn to be much more transparent and upfront. That said, we both know most men won't change. We can lead a horse to water, but we can't make it drink. Or can we? What if there was a way to change a guy's behavior? What if you could get into his head and take over the driver's wheel? What if you could make him do more of the things that you appreciate and need and less of the bad behaviors you dislike? At first, this might seem impossible. Nevertheless, I'm sure you've already met women who are good at manipulating their men. Enter the high-value woman. You know her. You've seen her. She's the woman who always has great men drooling over her. It's the woman you see getting all the attention. You often wonder, "How does she do it? What do they see in her? What does she know that I don't?" You might have even complained to your girlfriends that men just don't seem to notice what a catch you are. Your girlfriends may have even said, "He doesn't know what he's missing." What if you could make him see it? When you look at these high-value women who get their way with men, it might have surprised you that their looks don't seem to matter. The high-value woman can be great looking, average looking, or even bad looking. It doesn't matter. She knows her way around men. She knows how to mentally f*ck them. Are you ready to implement her strategies? You'll see behavior you've never seen from him. He'll start to put in an effort that makes you feel like you're a queen because to him, you are. At first, it will be strange. If you've never truly been in control of a man, it might feel like riding a

horse for the first time. But soon, it will make you feel all tingly inside. I'm not kidding. There's nothing more powerful than being in a relationship with a guy and having him do exactly what you want while he thinks it was his idea. (This is important, as you'll see. He needs to think he is the one in the driver's seat, even though you actually are.) This book is not about becoming someone you're not or turning your boyfriend into a spineless manslave. It's about your empowerment, about taking back what's yours. No man should ever be able to play games with you, to take you for granted, to treat you even a tiny bit less than you deserve. By the time you've finished this book, this will all be part of your past. Are you ready? Then hit the buy button at the top of this page and start your high value woman journey right away!

Customer Reviews

Great book. READ IT. It will make you reflect back on every relationship you've encountered. If you're an open person who doesn't blame everything on everyone else and can take accountability for the role you also play sometimes, you will find this book to be a gem. Wow. Where do I start?

First, I am NOT a relationship book type gal. The last one I read was at least 20+ yrs ago. However, I'm now single again after an 18 year marriage ended. Back on the dating scene that now includes online dating and I'm already ready to jump off the nearest bridge. Men and dating in general is just SO different from how it used to be and not in a good way :(I purchased this book out of total frustration after kissing yet another frog who said one thing yet totally acted the opposite. Yet, not knowing my value-I was determined to "make this work". I'd been dating the guy less than a month so I wanted to use this book to help salvage the relationship but ironically, after reading the book (which I did in one sitting) I don't even WANT the guy anymore and ended things. This guy had so many red flags and not only did it become crystal clear to me that I was dealing with a low value guy, but MOST IMPORTANTLY I WAS ABLE TO SEE THE MISTAKES I WAS MAKING AND THE PART I PLAYED WHICH IS PRICELESS!!This book will make you laugh and it will also make you cringe (if you are honest w/yourself) thinking on situations that you know you should have never allowed. It made me reflect on every dating scenario I've experienced lately and 9 out of 10 times I was just not with a high value guy and I was putting up with things out of loneliness and insecurity. To be fair, there was one guy that was definitely a "keeper" but I can see where my neediness and actions basically caused the relationship to crash and burn. The awesome thing is that instead of feeling depressed after finishing the book, I felt empowered and determined to learn from my mistakes moving forward. I definitely plan on using some of the techniques suggested and plan to purchase other books by this author.

This was an excellent book! I loved the examples to further drive the points home. No fluff and no nonsense. A very eye-opening book that I highly recommend.

Great book. I would definitely recommend this book to several of my fellow female friends! Like looking inside of a mans mind and putting the puzzles pieces together !!

Single lady? This is a must read!

Great short read. Like all the other books Brian has written, his tips are practical, straightforward, and empowering.

Reading now, and it's give me a lot to take in.

I've read a lot of "relationship" books lately and this is my favorite by far! Its logical and provides insight that the others didn't.

Book was very well wrapped at delivery and absolutely intact and beautiful. It's a VERY GOOD read in my opinion and I totally recommend it for it's purpose. Thanks for the seller for a good product.
