Football Girl

Synopsis

Being hit in the face was not a nice way to be wakened. Looking up I could see my step father glaring down at me. Mum had known for some time that I liked dressing and being a girl. My step dad on the other hand...

Customer Reviews

I started by reading the free sneak peak, and the story so intrigued me that I had to finish it. It reads like a very interesting autobiography, mostly first person accounts, and the description of games, parties, drives, and shopping trips gave me a vivid look at a person undergoing a vast change. The story reads well but is quite long and the only drawback is the author has described every outfit that is worn to a degree of over indulgence for Readers not into fashion; Still I would like to see if a second part with these same characters will be written.

Very well written. Characters fully developed and a believable story line. Got me hooked and I ordered "Football Girl 2". The only downside is, if you are not into football/soccer, some of the

terminology might be lost. I'm one of those near-sighted, inattentive, fat and slow referees she addresses throughout the book. Very good book and well worth referring.

Just finished reading this delightful story, and found it to be very well written and interesting. Being an American who went to school in England, I could relate to Mark/Susan's delights in being able to play football or Soccer as we, here in the US call it. When you find a sport that you love, you will truly play it, otherwise, you will just play at a sport. Susan had the sport and proved that she was the player the team needed; regardless of gender.

Wonderful book even if you are not into English football. In fact I learned a lot about it. Susan is a compelling character who survives many set backs, in spite of, or more likely due to her talent. I just love her sassy character, she seems so typical teenager in many ways. The characters are well-developed and the situations plausible. Enjoyed so much, I immediately got and read "Football Girl 2"

this is another book i couldn't put down, i loved the story and the writing. I wish i could have transitioned like this and had a friend and mom at that time in my life to help me like that

This was an excellent book portraying many of the issues trans persons go through, with an added twist in there :D . good characters, a great plot for sports fans.

I enjoyed this book for light re-jading. The story far exceeds the typical story of the genre. I would recommend it for adults interested in this type of story.

Great book learned about british football,
