The World Of Venice: Revised Edition

Synopsis

A fascinating exploration of the history, sights, seasons, arts, food, and people of an incomparable city. “A highly intelligent portrait of an eccentric city, written in powerful prose and enlivened by many curious mosaics of information...a beautiful book to read and to possess” (The Observer). New Foreword by the Author. Index.

Customer Reviews

Morris presents this revised edition of her popular guide to the city’s art, culture, people and cuisine, with a new preface. Copyright 1995 Cahners Business Information, Inc.

Morris presents this revised edition of her popular guide to the city’s art, culture, people and cuisine, with a new preface. (Publishers Weekly)

This is a delightful volume. The Venetian society that Morris so lovingly describes may be largely gone but if so the value of this book is increased for the traveler of 2015 and beyond. As Morris finds pleasure in the comments of earlier travelers so will later travelers take pleasure in hers.

This book was a great companion during my stay in Venice. It was delicious!

The esteemed author at her best relishing centuries of Venice’s singular legacy.

Great read in preparation for my trip to Venice.

It is a difficult read. Lots of things to learn here but the type is very small and it is taking forever to read.

Book arrived quickly and in "new" condition. All good.

... I read [this] book prior to a week-long trip to Venice. This book quite simply accomplished none of its objectives. It is a poor "guidebook" and is poorly written and uninteresting in terms of a travelogue--to quote Simon: "Abysmal with a capital A." The history and art of Venice are covered better in books from those genres. The only upside is that it is short. Yuck, what a waste of time. My advice is: get a novel about Venice if you like novels, a guidebook if you want that, an art book, or a history book. At least you'll get something out of those--this one tries all of these and fails. Actually, in terms of a travelogue, "Vendela in Venice" far surpasses any other Venice book I have seen. Although I originally bought it because it is considered a children's book, it is not dumbed down at all and adults will enjoy it...

This world classic of travel writing is a must in any scholarly library. In Venice Morris practically defines modern travel writing. In my opinion one of the world's top writers without need to include the term "travel". Sadly Harcourt Press have done us the readers and Morris a serious disservice in the way they printed this classic. So tight are the lines, so poorly printed is the text and so unbelievable awful are the photo reproductions I can hardly say. I own many Morris books both paper and hardback but none are so badly printed as this. Harcourt seems to take pride in printing Venice on the cheapest paper, with the worst font available. It is an absolute eye sore to read given the thin spacing of the text. Do yourself a favour and DON'T BUY THIS EDITION. Look for the UK version or any other publisher than Harcourt. An extremely sad result given the importance of this book on travel writing world wide.
