Reference > Consumer Guides

Customer Reviews

I consider this book a fraud. It gives no delivery locations. There is a slight description of the service, and the names of CITIES only. In the case of Los Angeles, this is of no use. I am out 99 cents. Don't buy this.

Why should you pay for this? I have always held in high regard but this is a dissapointment. I just need delivery info for San Antonio. I can't find it on the website.

I thought I could check my address to see locations. No luck. Just described the system, diff. Options and how they work.

HUGE rip off!!! There is nothing to this book. You should be able to find all of this info on the site, although I'll admit they don't make it easy. should remove this from their site and make sure it's included in an easy to find place on their site. I shouldn't have to give this any stars.

Why isn't this info just posted on the web? And there are no lockers listed at all, just which cities have them. Useless!
