Cortical Visual Impairment: An Approach To Assessment And Intervention

Synopsis

The current leading cause of visual impairment among children is not a disease or condition of the eyes, but cortical visual impairment (CVI)-also known as cerebral visual impairment-in which visual dysfunction is caused by damage or injury to the brain. The definition, nature, and treatment of CVI are the focus of great concern and widespread debate, and this complex condition poses challenges to professionals and families seeking to support the growth and development of visually impaired children. On the basis of more than 30 years' experience in working with hundreds of children of all ages with CVI, Christine Roman-Lantzy has developed a set of unique assessment tools and systematic, targeted principles whose use has helped children learn to use their vision more effectively. This one-of-a-kind resource provides readers with both a conceptual framework with which to understand working with CVI and concrete strategies to apply directly in their work.

Book Information

Paperback: 234 pages

Publisher: AFB Press (August 16, 2007)

Language: English

ISBN-10: 0891288295

ISBN-13: 978-0891288299

Customer Reviews

If you work in the area of children with Cortical Visual Impairment then this is the best book I've ever read. It's research based, informative and provides a step- by - step guide of how to assess children with CVI and how to implement a program to improve functional vision.

Wonderful wealth of information to better assist persons with a Cortical Visual Impairment (CVI). Dr. Christine Roman has provided an abundance of knowledge in this text that are beneficial to so many in the teaching field as well. Mary O'Donnell

Lots of good things in the book for TVI personnel.

Christine Roman-Lantzy is amazing! Just attended a training with her and she is hands down-AMAZING! Can't wait for her new book to come out!

My 18 month old daughter has CVI and this book has been a great reference for us.

A must have book if you are dealing with CVI.

Thank you Dr Roman!!!

an amazing book. a great read!
