Customer Reviews

Robert M. Klein, PhD Professor of Anatomy and Cell Biology Associate Dean, Professional Development and Faculty Affairs University of Kansas, School of Medicine Kansas City, KS George C. Enders, PhD Associate Director and Director of Medical Education Assistant Dean for Student Affairs Department of Anatomy and Cell Biology University of Kansas, School of Medicine Kansas City, KS

The book really prepared me for my board exam!

It's not as helpful as I would have imagined. It does provide questions, but they don't seem to match the question style of step one. I'm assuming it's because that's oriented towards pathology, not histology. It is a review book and that's good.

i ordered this book for my M1 histo/cell bio course and it was a great review source. The question style in there was great for my NBME mini-board. It made sure I knew the questions at a more advanced level than the mini-board, so when I walked into the mini-board, it was much easier.

The high yield fact section in the beginning was really helpful, and the answers to the questions have great explanations. The questions, though, were REALLY difficult in comparison to other exam prep books

The book format and contents were much more than expected. It is a very useful books for those who want to test themselves prior to writing USMLE exams.

An excelent option to study quickly. Very very concise and easy to read. really meets my expectations. i like it

Great for practice tests and covers all the high yield topics!

Exactly as described.
