Customer Reviews

Zoologist Jim Kavanagh has made a career out of introducing novices to plants, animals, the sciences and world cultures. In addition to creating over 500 simplified nature guides, he has also authored guides to languages, cities and outdoor skills. An avid traveler and backpacker, Kavanagh's path has taken him around the world to many remote destinations including the upper , Africa, Australia, and the Arctic Circle (and this is just the As). He is also the author of a series of state-specific guides to common species and natural attractions and a children's book on evolution.

I just got back from Africa and wished I had this folding pocket guide. One of the travelers had it and

it was invaluable on naming the animals and birds we saw. As soon as i got back I knew I wanted it so I could use it when I was making my photo book. It highlighted almost all of the familiar species we found in Kenya and Tanzania. The illustrations are colorful and and give some information about each one. I would highly recommend it for anyone that is going o East Africa.

Used this as a quick reference on a safari in Tanzania and Kenya. It is easy to carry and laminated so it doesn't tear or get dirty (dusty). Really handy! Worth every penny! We also carried the East Africa Birds reference.

It covers the most of safari animals in the East Africa, some of the pictures are too small to see clearly.

With severe luggage restrictions on safari, this is the perfect pocket-size guide to tuck in your duffle bag! Quality is good and identifies good range of animals we hope to see!

Excellent resource. We were able to keep track of our sightings on safari.

Nice

Great fast quick reference guide and memory helper for all those photos

Used it a lot . Good reference
