Customer Reviews

Clearly a diy self-publishing job, no table of contents, no organization, no way of looking up anything at all. More useless than a white-pages or simply printing out various wikipedia pages. The only positive thing about this book is it's printed on fairly nice paper, but that's a complete waste. Any review more than two stars has to be purchased, nobody would ever actually like this book for real. Had to return it as it would be embarrassing as the gift it was intended to be.

A real disappointment. TripAdvisor.com provides a lot more information for free--with traveler reviews. I bought it in advance of a trip back to Pittsburgh, which was my home in the 80s. Wish I had bought something else.

There are things in here that Pittsburgh natives haven't even gotten to!

Bought as gift for a new PITT student who loves it!

Good if you in Western PA

Great book full of great ideas for a new Pitt resident

Quick guide for newcomers not for locals as much

For those knuckleheads in Cali that wondered why left.... time for lunch at Primanti's
