Age Range: 12 and up

Grade Level: 7 and up

## Customer Reviews

McDougal Littell MATH Series Course 2

Excellent textbook in great condition!

Use with 5th graders working two years above grade level. Prepares them for Pre-algebra in the 6th grade and then algebra 1 in the 7th. Great explanations and well organized sections. Great supplement for any early middle school kid to have at home.

Better than expected!! Basically NEW

Excellent book! Great material, easy to understand, and easy to teach my 5th grade daughter!

I used it to catch my son up for Honors Math next year. I thought the concepts were pretty well laid

out, with plenty of varying examples/problems to work on. I appreciated that some of the answers were in the back!

Just as described.

Very resourceful, standard-based, abundant practices, and has sufficient sample tests. Great book!

This book was in excellent condition and had an awesome price. I was more than pleased with this seller and book. Thanks so much
