Customer Reviews

Disappointing. Nothing about a cure at all. Some tips, good explanation but not solutions as the title suggest. Do not waste money. All the information on the book you can find for free in internet.

Didn't really give much significant information.

This e-book is being used as an up-sell to a another paid product for eye floaters, I felt like I was buying an advertisement.

Nothing of any value in this book, don't know why the author bothered writing it!
