The Book of Mormon for Latter-Day Saint Families

Not inexpensive, but my kids (ages 4-8) have enjoyed the extra pictures. I, personally, like the additional quotes & thought-provoking questions. Each chapter is broken into bite-sized sections with bold headings -- that helps with reading to those with shorter attention spans. Good for a bit of daily reading to build the habit & learn the stories, but they don't get bored like they might if we were powering through whole chapters. This was recommended by a fellow mommy of kids close in age to my own, & I'm glad I took her advice & ordered it.

Loved the Book of Mormon, hard read first time but great truth !

Wife loved it. Read from it every night as a family. Helps immensely when answering kids questions.

“I told the brethren that the Book of Mormon was the most correct of any book on earth, and the keystone of our religion, and a man would get nearer to God by abiding by its precepts, than by any other book.” (History of the Church, 4:461.)

This book is great for both families and individuals. The notes and explanations are incredible. They will make your understanding bring you joy. It is so helpful to "know " what you are reading.

Arrived quickly and the price was phenomenal!

Wonderful edition of the Book of Mormon! We bought this for our kid's young family : )Came highly recommended and they love it. It will grow through the years with our grandkids having many great "special" features like word explanations and maps. Great buy for families!
