I am 59 years old and have just lost everything I own. I am starting again with such faith and confidence, which is very different to how I was before I read this book. She has literally saved me and set me on a new wondrous voyage. I have lived my life, brought up a daughter from a very young age, had many long term relationships, been battered emotionally by life, yet I survived through sheer grit and determination never taking the time to look deep to heal wounds and to set boundaries. The recession in South Africa over the last 3 years affected my business and I made some pretty stupid decisions and got involved with the wrong people. After a protracted court case which I won, the company went into voluntary liquidation which meant I lost everything. Because I know and believe that I am in exactly the right place at the right time, I looked very deeply at what caused this situation and why. It started with me and ends with me. What lessons I learned! I wake every morning with a prayer on my lips, energy to get through the day regardless of banks and

creditors phoning me. Marianne, I thank you from the bottom of my heart for reminding me that God is my partner, that I am protected and that things can change in an instant when I ask. You have made it easy and also taught me how to pray. I believe in miracles. Elain Steinberg. South Africa

My book arrived damaged, but I decided to keep it because I was still interested in the contents. This book is beautifully written and will change your attitude if you like to play "victim" to circumstances like me. If you are looking to improve spiritually and financially this is the book to read. It is a feel-good book.

In these difficult economic times Marianne Williamson's new book, "The Law of Divine Compensation: On Work, Money, and Miracles" is a refreshing reminder that God's love is the true source of our abundance. "Finance is just one of many areas where an increasingly obsolete, materially based worldview is proving to be inadequate to the challenges of the times in which we live," Williamson writes in the preface of her book. The author's message of God's unconditional love trumping worldly possessions resonated with me. I found myself underlining passages in page after page for future reference (the most words I've highlighted in any book I've read this year). Williamson is not preaching to us from the mountain top. Similar to her writing style in other books, she is very vulnerable with her own struggles - this time in the financial realm. In "Divine Compensation" she tells a story of how she lost \$10,000 early in her speaking career due to poor event planning. "Oh Daddy," she recalls telling her father, "It was such a bomb!" Williamson describes how this personal misfortune taught her a lesson. After consoling words from her father, she relates how she chose to think about this incident was the key to transforming it to positive experience. She could either see it "as proof of utter failure and doom or as an opportunity to forgive myself and attract a miracle." Williamson, in being open with her own shortcomings, gives the reader a sense of being counseled by a friend, rather than being lectured at by a "know it all" spiritual guru. I wasn't expecting to read about the value of forgiveness in a book about work and money, but according to Williamson a forgiving spirit is essential in attracting our own good. "The universe knows if you were hurt and is already on the case to make right whatever wrong occurred," she writes. "Your anger, if it lingers, throws a wrench in the machine of the miraculous universe." In her view, "no deviation from love - on your part or anyone else's - can keep the universe from its divine intention that your life be one of fullness and joy." I also liked the prayers Williamson included in the book. Prayers to transform the reader's consciousness. Can you relate to this one as I did?: "Dear God, I feel myself falling into the hole of self-pity, self-obsession, and negativity. I know I

shouldn't think this way, but I'm afraid and I cannot stop. Please replace my thoughts with Yours, dear God. I am willing to see myself and all things differently. Please send me the miracle of new eyes and ears, that I might know my greater good. Amen."I copied this and other prayers from the book and plan refer to them often during my own times of doubt and struggle."The Law of Divine Compensation" is the best book from Marianne Williamson I have ever read (and I have read a few, including her landmark work "Return To Love"). "You are not merely a being of the material world; you are a being of unlimited spirit," she writes. "And in spirit there is no lack. You are not lacking, just because your circumstances are." Williamson's message of God's love being our true source of fulfillment was a comfort to me, and I think it will be to you, too.I was given a complementary copy of this book for review purposes. I was not financially compensated for this post. The opinions are completely my own based on my experience.

Uplifting and accurate take on our place in the universe and our relationship to Love. Worth multiple reads. It is also worth obtaining the Course on Miracles which forms its foundation. When I read this book I thought, "this is your lucky day." It is definitely a life changing read. It makes me wonder "where did Marianne parachute in from?" She's indispensable.

Every Marianne Williamson book is worthwhile reading, and her latest effort, The Law of Divine Compensation is no exception. For people who have previously read Ms. Williamson's other books, much of the information in this current text will not be new. What is new, however, is that the information is specifically focused on how to overcome financial problems. Founded in a spiritual perspective, you will understand that seeing through this perspective how your inner world acts as first cause which is then reflected in your outer world, is the only way to create permanent change. I highly recommend this book to people for whom these metaphysical concepts are new or for people who want an overall summary of Ms. Williamson's previous books. As with all of her writing, the author uses concepts from "A Course in Miracles" as the basis for what she has learned and shares with us. Marianne is truly an unrivaled master in making these concepts easy to comprehend so that we can apply them in our lives. I might simply suggest that I would like to have had more hands on exercises to us. This is an easy to read book that you will refer to often.
