## Customer Reviews

As a Spanish tutor, I only recommend products to my students which I feel strongly about. This is one of them. It is true that the 800 Phrases book covers a lot of Spanish that you can find in almost any learning-Spanish phrase book. But the Spanish vocabulary taught in the How To Describe People book is not something you will learn from any other book. You would have to spend all your time around native Spanish speakers or move to a country where Spanish is the only language spoken. The How To Describe People book provides you with a short cut that will allow you to learn the same Spanish vocabulary words and phrases without moving to a Spanish-speaking country.

I've spent a lot of time trying to find a book that teaches romantic phrases in Spanish. There are

plenty of Spanish books covering nonsense such as How To Swear In Spanish. I was so happy when I found this 3 in 1 box set with a book that covers romantic phrases. The other 2 books in the box set are really of no interest to me. I wish the writer had dedicated the entire 3 in 1 box set to romantic phrases in Spanish. I am another customer who is looking forward to Audible's release of the 3 in 1 Box set for this book.

Most part of the book itself has been written in Spanish. You need to know the language before u learn spanish from this book. The purpose fails to buy this book.If you are not native Spanish speaker and want to learn from scratch, this book is not for you. Avoid !

I'm learning so many Spanish words. The physical descriptions book is hilarious. Can't wait for the release of the audiobook.

This is a bargain. I am happy to have received 3 excellent learning Spanish books for the price of 1.
