## **Customer Reviews**

This is a requirement for my class, so a review is pretty moot. It is clear and easy to read, and it arrived in great condition.

Not completely sure as I haven't used it much yet, looks okay

Big, BIG, B-I-G shortcoming for this book however, is the complete lack of an answer key. School book and I have to use it without answer key.

It focused too much on how NOT to document, and gave too few examples of how TO do correct documentation.

product as described and arrived on time

Exact book needed for a class and was SO MUCH more reasonable of a price than buying from the school.

It is a book. It has words. If you can read at a high school level, you should be fine.
