Glacier National Park: The First 100 Years

Synopsis

Glacier National Park: The First 100 Years is an exquisite new book celebrating the park's 100th anniversary. Published in partnership with the Glacier Natural History Association and an official licensed product of the park's centennial, Glacier National Park: The First 100 Years features more than 200 exquisite landscape and historical photographs, as well as some of the finest artwork of the region and its people, including Charles M. Russell's sun-splashed paintings of Montana scenes, Winold Reiss's extraordinary portraits of the Blackfeet, Monte Dolack's vivid Glacier views, and Mel Ruder's Pulitzer Prize winning photographs. C. W. Guthrie, author of four other books on Glacier National Park, details the astonishing changes the park has undergone since its designation in 1910. From the Great Northern Railway's Swiss-style chalets and lodges to the glorious Going-to-the-Sun Road, from the park's tragic first fatal grizzly attacks to its designation as an International Peace Park, Biosphere Reserve, and World Heritage Site, Glacier National Park has a story unlike any other. 'Gave to Mom several months before we went to Glacier. Absolutely lovely book & we've all enjoyed the book.

Great book. Amazing pictures! had the best price that I could find. We found the book for sale at a gift shop in the park, but didn't buy it because it was so expensive. Has a lot of good info on the history of the park.

This was a gift and the person receiving it is really enjoying it.
