Destination: Phoenix by Dorothy Tegeler is an OK book. In it's day it was a wonderful book. This is not its day. The book is now slightly over a decade old. Highways, businesses, and activities change in 10 years. This text needs an updated version. That is not to say it is not worth the money. The cost is right and there is a lot more right with the book than wrong with it. I bought it and find it very useful.

This book was a big help. My son and I were going to spend 5 days in Phoenix for a football game. We had no idea on what to do. After reading this book, we were able to have an unbelievable get-away.
