Book by Bakke, Diane, Davis, Jackie

I'm Norwegian, I love America and I love love love Baseball. So when I had the chance to go to Denver, meet some internet friends and see Denver, my main priority was to go to Coors field and see the Colorado Rockies play. This would be my first ever, real baseball game. When I was there I truly enjoyed myself. And I told myself "I am going back to this city and this wonderful ballpark so help me God" and I also told myself I had to learn more about the surrounding area of Coors field. It looked historic yet very new and fresh. The local person who took me to the games told me that this whole area had been revitalised from near slum to its present pristine look thanks to the building and opening (in 1995) of Coors field. So when I got back home and online I wrote down Coors field, LoDo, Denver and this book came up. I bought it and I could finally read all about the great red brick buildings around Coors Field, what I now call the Temple in Denver, and learn all about the fun little histories behind them. I loved Denver and Coors field. Reading this book made me want to go back and explore even more. Maybe even go back and stay.

Terrific Book! "Places Around the Bases" does a great job in relating Coors Field to its setting within LoDo Denver. It enhances the experience of attending a Rockies home game by extending the

experience to the neighboring historic district. This book helps make walking through LoDo streets on the way to Coors Field as enjoyable a part of going to a Rockies Game as the game itself.
