The Ultimate Guide To Homeschooling Teens

Synopsis

Debra Bell has helped numerous homeschooled students, including four of her own, gain college admission and win substantial scholarships to the schools of their choice. Now she can help you and your child navigate high school at home and successfully transition to the college and adult years. Inside this incredible resource, you will find: *Tools for developing critical and creative thinking skills *Study-smart strategies for maximized learning *What to do if your child is behind or ahead *How to help your teen discern his gifts and calling *How to prepare your child for high school during grades 6 through 8 Here are all the forms, charts, and resources you will need to teach your child through high school, as well as a guide to taking advantage of new media and the best online learning opportunities. Learn what college admissions officers say they look for in a prospective student and how you can help your teen apply for and receive merit-based scholarships and maximum financial aid. There's also a bonus section on making the most of the college years.

Customer Reviews

Debra Bell is a best-selling author and former public-school teacher who homeschooled her four children from elementary school through high school. She served in leadership for two homeschool co-ops for more than a decade and has taught literature and composition classes for more than twenty years. She teaches Advanced Placement English online through PA Homeschoolers and directs Debra Bell's Home School Resource Center. A popular convention speaker known for her wit, warmth, and candor, Debra is currently a graduate assistant and doctoral student. Her research

interest is how, when, and why homeschooling works.

I found this book very helpful in planning out the 7th grade for my daughter. She has always been homeschooled and this book helped me plan her middle school experience and chart a course for high school. It was exactly what I was looking - concise information with sample transcripts, charts, and other tools for planning things ahead of time. I feel very confident that I can continue on the homeschool journey even in the upper grades with excellent resources like this in hand. This book helps to delve into mysteries like course descriptions, resumes for teens, the place of volunteer work, credits, honors/AP credit, determining grades, and staying sane. Even as a seasoned homeschooler, the upper grades can present difficult challenges. This book is helping me plot a course.

Terrific resource and covers ALL aspects from teen attitude to curriculum/ non curriculum academic needs, to what colleges are looking for and more!

This book has such great information for parents who homeschool their middle and high school kids. I only wish I would have bought the book when my kids were 12 years old so I would have been better prepared. Highly recommended!

The book is helpful when homeschooling teens. Excellent suggestions for learning skills for careers.

This is a well written book, written from the Christian perspective. It's just what I was looking for as my eldest son turns 13 this year.

It's a good and helpful homeschool book. It helps but it's always best to ask wise homeschool moms/dads. Am I right?

I wish I had had this book six years ago when my oldest was starting down the home school high school road!

I first read the book cover to cover, and found so much info that I needed. Now I am re-reading parts of it to plan for the new school year. I wish that I had had this book when my son started the highschool years. I have read Debra Bell's other books, and they are all informative and inspiring. I

encourage all homeschooling parents to read this book over and over again. Thank you Debra Bell for sharing your wealth of experience with the rest of us!
