Customer Reviews

A little bit too kiddish in terms of the song selection in the book. The jump from the super basic to the end of the book is a bit of a jump. Depending on who is trying to learn, I may or may not recommend the book.

What a book. Had to wait but it was definitely worth it. Awesome!

I love all Jake's stuff. This book is great because it starts right at the beginning. It's rare to find such an incredible performer that can break things down the way he does for ny level of musician.

While not a complete beginner to advanced course, this book seems to have lots of helpful tips and techniques, as you'd expect from someone with Jake's talent and skills. Thanks for the fast delivery!

Great deal

We love Jake and his music. I am looking forward to studying his approach to learning to play my uke better. We have been to his concerts and met him afterward. He is such a great musician and person that I want to support him in any way possible too.

I pre-ordered this book because I was so enthused to receive it. It certainly lives up to my expectations. Unlike some books, it is a true beginners book. He explains things thoroughly and progresses at a good pace. Also, you learn recognizable songs right away, like Happy Birthday and the Star Spangled Banner. Nice transition from picking to chord strumming. Excellent video quality. And of course, Mr. Shimabukuro is his usual affable self. Having met him at a meet and greet after one of his shows, this video feels like your own private lesson with him. About the only additional thing I would have liked to see is a bit more on strum patterns, but overall I was very pleased with the book/videos.

Great book. Better than any book on the market.
