Chinese Ivory Carvings: The Sir Victor Sassoon Collection

Synopsis

Features over 350 exquisite ivories, the most notable artifacts in Sassoon's important collection

Essays written by experts in their fields place the objects in their historical context, making this a book that is both accessible and enlightening

Perfect for anyone interested in Asian art, the history of collecting, or the rich and varied relationship between East and West in the 20th century

Sir Victor Sassoon (1881-1961) lived an extraordinary and colorful life and left a remarkable legacy. He created a trust to preserve his collection of ivories for the benefit of UK citizens. Since its foundation and under the guardianship of the dedicated trustees, the collection has grown by the addition of significant specimens that originally went unrepresented. Chinese Ivory Carvings presents 350 of the most significant artifacts, each illustrated and discussed, from Sassoon's extensive collection. Four introductory essays explore the acquisition of the pieces, placing the ivories in their historical and cultural context. In this scholarly celebration of Sassoon's bequest, one can appreciate some of the many facets of Chinese culture both religious and secular. Including minutely carved 'devil's work' spheres, massive figures and exuberantly carved vases, the book is also testament to the technical skills of the craftsmen who produced these wonderful objects.
