Customer Reviews

My husband is the one who does the Sudokus. He particularly likes the belt series. He has used the green belt, white belt, the different degrees. He likes them because the entire book is basically the same degree of difficulty. When I buy the regular magazine Sudoku books at the market, he usually wastes half of the book. He doesn't like the ones that are really easy, like at the front of the book, and then once he gets to the hard, difficult and extreme, he doesn't like them either. These are perfect.

Extremely well written. The puzzles are great!

Absolutely love the Martial Arts Sudoku series. Nice clear print, smooth pages, & a mechanical pencil works great on it. I keep one of these every time I need to travel or go to an appointment.

I bought this for my mother who takes this along on car rides and enjoys going through the various puzzles. I occasionally work with her and find that it's fun to have pencil in-hand while solving one of these. If one puzzle stumps her she sometimes moves on to another to return to the original puzzle later.

Good
