## Customer Reviews

This book has been a staple of great finger exercises, bowing techniques to be used in addition to technique books to prepare the student to play longer complex pieces. I have used this book and have loved it to refresh muscle memory to prepare me to play contemporary and traditional violin pieces.

The product itself is fine, but the promo is misleading - this is ONLY the First volume - 30 etudes. The Second volume (other 30 etudes) is sold separately.

Great book. Great exercises. Good quality. Good shipping.

Good challenge for violin

Just perfect! Just what I wanted. Gives exercises for finger board strengthening and memorizing.

The pieces in this book have been great for extending my 10yo son's violin skills. I've seen

improvement in his playing since he has started to add the pieces to his repertoire.

I really enjoy practicing these violin exercises. My teacher recommended these and I can see why she considers them essential to learning the violin.

All my students use these studies and make great progress.
