Customer Reviews

The book has rich information, covering logistics, accommodation, food, shopping...However it didn't help me much when I was in Brazil. The major problem is that it has almost no photos or pictures for the places it recommends and the recommendations are all listed in Portuguese. It's hard for me to match the places I have been to the recommendation list in this book. And when I was looking for

some attractions, I didn't how the architecture looks like.

The maps were not easy to use. We struggled once in Brazil to navigate using the book and ended up downloading the Lonely Planet guide and using it from our phones instead!

great for trip to Brasil
