Men In Midlife Crisis

Synopsis

Jim Conway writes for all men who face midlife and have thought about walking away from family, work, church . . . all responsibilities, and never coming back. Of his own midlife crisis he says, "I feel like a vending machine. Someone pushes a button, and out comes an article. The family pushes buttons and out comes dollars. The community pushes other buttons. . . ." Also available- Your Husband's Midlife Crisis by Sally Conway.

Jim Conway, Ph.D. is a popular conference speaker and counselor. He holds five earned degrees in theology and psychology, is the president of Midlife Dimensions-an international counseling and conference ministry-and is the author or co-author of 14 books.

Haven't finished book but hate that midlife crisis leads so many men away from the women that have sacrificed everything for them!

It would be great if the man going through the crisis would read this, but it still has useful information for the woman who is trying to work with him in his struggles.

This book describes my husband pretty accurate, but it doesn't really offer much help for my situation. My husband isn't a Christian, so this book doesn't really help other than helping me realized my husband is indeed in midlife crisis.

Very good book.

Good book

I found this book amazing. My husband has been going through everything described in this book. I especially found the info for wives extremely helpful, especially the part where the author describes the experience as being on a rollercoaster upside down with someone vomiting on you! That's exactly my experience. He has taught me to hang on in there and not to give up even though I have felt like doing so many times. I also found the fact that it is a process that can take from 3 to 10 years informative and it has given me the courage to stick it through. Thank you Jim Conway.

This helped my husband have hope, and me too. It was like Jim Conway was looking in our window.
