## Customer Reviews

Caren Van Slyke is a nationally recognized expert on the GED Test. She has been involved in GED Test preparation for more than 30 years— as an instructor, national teacher trainer, writer,

and editor. She is founder and president of Learning Unlimited, which has developed dozens of study materials for the GED Test. Caren and the Kaplan content team have developed this study guide to meet the challenges of the new GED Test launched in 2014.

I think the Kaplan GED prep materials are the best, though I see value in all the major guides. If you are only taking the math test, this is your book. However, if you are taking more than one of the four tests for the GED, buy the full version. As far as I can tell this is identical to the material in the full version. 's price for these 780 pages tomes is very reasonable, the lower price I have found. Best wishes to you in your GED studies. If you are planning to take, you are doing a good thing for yourself.

One of those books that is well presented in context. You wont feel lost, it takes through each subject one at a time, like a baby learning to walk.

Awesome book helped me pass my math test.

Thick book, lots of material...but my son passed his GED after using it!

5 star rating no complaints here
