Criminal Psychology: Understanding The Dark And Twisted Mind Of A Serial Killer

Synopsis

Get Inside the Mind of a Vicious Serial Killer Serial killers are a different breed of killer. They're people you know. People with families. They're often polite and cordial in public settings. They're often educated. And most times, they're just the guy-or girl-next door. But deep beneath the polite and innocent looking exterior, lays a deranged sociopath that kills habitually-and without a shred of mercy or remorse. Now, inside this book you'll gain a firsthand understanding of why serial killers do what they do. You'll discover the thought patterns, motives, and behavioral traits that set serial killers apart. You'll know the inner working of a serial killers mind, and what REALLY drives them to commit their horrendous acts. This is unlike any other book on criminal psychology, as the content can get quite detailed and graphic. We're not here to make you feel good, only to share the real facts and theories associated with serial killer behavior. When you're finished listening to this book you should understand a serial killer's world, the thought process of a serial killer, and the background of a serial killer. Real life serial killers will be used as examples throughout this book as well. Download this book today and also discover

I've always wondered how it was possible that serial killers after their crimes, they can return to normal life. This book I took out of curiosity, and now I can understand exactly what it means when someone is "psychopath". For me this is a very interesting reading and I admit, I'm still under the impression of this book. Well done!

A serial killer is someone who has killed three or more people. It was interesting to read about how serial killers are known for both organized and disorganized behavior. They are also categorized by non-social and anti-social behaviors. It was not surprising to read about them normally having a troubled childhood (i.e., abuse). The chapter of motives was disturbing. For example, Belle Gunness is said to have killed to simply collect cash and other valuables. I would recommend this book for anyone interested in understanding what goes on the mind of a serial killer.

I'm obsessed with Hannibal Lecter even though I'm somewhat scared... Damien Woods sheds a light on how the mind of a serial killer works and how he (or she) operates. Fascinating read, well written and definitely a book I will recommend to friends!

Full of good information regarding famous serial killers and give descriptions of each kind of serial killer.

If you like serial killer stories, you are going to love this book because it explains the inner mind of a killer/criminal. The author has done a great job in creating a page turner.
