Government Contracts In A Nutshell (Nutshells)

Synopsis

Summarizes the Federal Acquisition Regulation System (FARS), improper business practices and personal conflicts of interest, publicizing contract actions, outsourcing/privatization, and competition requirements. Addresses acquisition plans, contractor qualifications, contract delivery, and performance. Explains socio-economic policies, commercial items, options, sealed bidding, and negotiation. Reviews general contracting requirements, intellectual property, cost accounting standards, cost principles, financing, protests, disputes, and appeals. Explores research and development contracting, construction and architect-engineer contracts, inspection and warranty, value engineering, delays, suspension of work, modifications, subcontracting, and government contract termination.

Customer Reviews

I cannot comment regarding the substance of this book yet, as I have not finished studying it, but the editing is terrible. Within the first three chapters there were easily over a dozen very simple grammatical and syntactic mistakes. In the sixth edition. Given the price and audience I would expect at least decent grammar and no spelling errors. Well I would be wrong. Honestly if someone in my firm handed a memorandum or brief to me with these kind of errors I would seriously consider firing him or her immediately.
