Strange Dogs: An Expanse Novella

Synopsis

From New York Times best-selling author James S. A. Corey... Like many before them, Cara and her family ventured through the gates as scientists and researchers, driven to carve out a new life and uncover the endless possibilities of the unexplored alien worlds now within reach. But soon the soldiers followed, and under this new order, Cara makes a discovery that will change everything. Set in the hardscrabble world of the Expanse, *Strange Dogs* deepens James S. A. Corey's acclaimed series. The Expanse (now a major television series) *Leviathan Wakes* *Caliban's War* *Abaddon's Gate* *Cibola Burn* *Nemesis* Games> *Babylon's Ashes* Coming Soon: *Persepolis Rising* The Expanse Short Fiction *The Butcher of Anderson Station* *Gods of Risk* *The Churn* *The Vital Abyss Drive*

Customer Reviews

I've enjoyed most every story in the Expanse series, and this novella is no exception. Written from the perspective of a young girl living on one of the newly colonized worlds, a series of inexplicable and somewhat sinister events are related to us through the filter of her innocence and youth. The story is interesting and well paced. It also has the advantage of being self-contained: despite being set in the Expanse universe, there are very few references to events occurring elsewhere. One could easily enjoy this story without ever having read any related books. If you enjoy sci-fi, reading about alien ecosystems, and can live without having every mystery explained, then this will be an excellent read for you!

Strange Dogs (ebook) by James S.A. Corey A compelling side tale of The Expanse universe. It's a very quick read, but still well done. And I liked that it gave us a glimpse of life on a planet that was through the gate!

Good story from an interesting viewpoint. Will we see these characters again? Worth your time and money.

Not up to their usual standards....I guess I go spoiled by the rest of the "Expanse" series!

Like previous reviews the story just gets started and then it ends. I liked the character development and the perspective of a child. I thought they did that fairly well. However, unlike the previous novellas this seems completely unfinished. Their last two pieces have been disappointing. I hope their next installment will turn this around.

If you follow the Expanse saga, this a great side story to catch up on some details.

Coming from a child's POV it reads nothing like anything else in The Expanse and has the stylings of a coming of age story, but still manages to mix in sci-fi postulation about how humanity adapts to its environment and opens up a whole new can of worms for The Expanse franchise. A nice, but also essential diversion for following the progress of the 'verse.

Ok story but quits right when it begins to become interesting.
