Spanish For The Busy Traveler

Synopsis

Learn to communicate effectively while traveling in just 5 hours! Have you always wanted to learn Spanish but never found the time or the right teacher? Do you want to explore your travel destination on your own but are concerned because you don't know Spanish? Did you study Spanish in school but find yourself unable to construct even simple sentences in Spanish? This book is for travelers in need of a Spanish beginners or refresher course. Due to our unique method of teaching, you will be amazed at how much Spanish you will learn and retain in just five hours. What makes this Spanish course special? Our breakthrough method allows you to retain most if not all of what you learn and immediately put it to use. The key is interactivity: Instead of making you repeat words and sentences, you are encouraged to think and apply what you learn. Using the words and concepts you learn throughout the course, you will build Spanish sentences and translate Spanish sentences into English right from the start. The course also makes use of the many similarities between English and Spanish, so you can associate new Spanish words with English words you already know. You'll learn relevant words and sentences that you can put to use immediately. This will allow you to reinforce what you've learned through real life practice and motivate you to complete the course. This course only takes about five hours to complete. Many people buy expensive Spanish courses and never find the time to complete the course. But you should be able to find five hours. Even if you only study for half an hour each day, you'll be done in a little more than a week! Learning should be fun and rewarding. It is hard to describe the pleasure you experience when you manage to construct complete sentences in Spanish after just half an hour into the course. In addition, the course is peppered with quotes and anecdotes, keeping the learning fun and exciting!

Book Information

Audible Audio Edition

Listening Length: 4 hours 49 minutes

Customer Reviews

My friend recommended this book to me since she used "Spanish for the busy housewife" and she found it to be very useful. I do not have an easy time learning languages, and I was very pleasantly surprised to see how quickly I was able to start communicating in spanish. If you are planning to travel and would like a book that will prepare you with words and phrases that a traveler would find helpful, this is a good way to learn the basics of a language.

I was planning to spend some time in mexico. I do not have that much time on my hands other than my 25 Minute work commute. in about two weeks i was confident in my spanish, although my girlfriend was not. but we i sure surprised her when i could make lite conversation with our cab driver as well as some of the locals. well worth it

This is an excellent book for someone who wants to learn basic Spanish fast. It is a fun and very imaginative- yet intuitive way , to learn Spanish. I would recommend it highly. It would be useful to also include some phonetic guidance for pronunciation to instill good practices from the beginning.

I've tried apps, songs, books, YouTube videos, looking stuff up in a Spanish dictionary, and Google Translate. This book along with the audio book has tied it all together and I can't wait to try speaking on my next airline trip to South America.

I love what this guy is doing with language teaching. Delivers as advertised. Gave me what I needed in short order...

exelent and very user friendly!

Highly recommend! Before traveling to Peurto Rico this summer, I bought this audio book - and I am thrilled with it! The interactive lessons really captured my attention and the narrator vastly helped my language skills by teaching me the communication basics and giving me the 'tricks' of the language. This method is unique to what I have seen so far; it teaches the language intuitively, doesn't get stuck on the details, and is easy to pick up. I was able to test my new skills while in Mexico, and the

people there were really impressed with my conversational skills. This made my trip all the more enjoyable. Thank you for this great language teaching guide! I will definitely recommend it to all of my acquaintances. This is a must-buy for anyone traveling to a Spanish-speaking country.

Very helpful. Wish I would have gotten this before going to Cuba. Love the principles being taught that really helps for so many additional words.
