Jet Fighters Coloring Book

Synopsis

With the birth of the jet age at the end of World War II, military combat planes acquired new, highly efficient capabilities. This exciting, well-researched coloring book sends you flying high as you read about and color accurate illustrations of these historic aircraft. Forty-four finely detailed illustrations depict a low-flying U.S. F-117 Stealth fighter, an aircraft carrier-based F-18, a Tornado GR-1, a Russian-built MiG-15, a Northrop F-5, an English Electric Lightning, a Republic F-105D, and a host of others, including: McDonnell Douglas F-15, Mitsubishi F-1, Lockheed F-80 Shooting Star, MiG-25, Foxbat, De Havilland Vampire, Grumman F9F Cougar, Convair F-102, Dassault Mirage 3, and many more. Accompanied by fact-filled captions that provide a brief description of each plane, these clear and accurately rendered illustrations bring to life all the drama of the quest for air superiority. Every Aviation Enthusiast will love this book! This is a book about Jet Fighters, shown through illustrations to color and 2 paragraph summaries including the history of each plane. This book brings 3 generations together at my house! Grandpa, Dad and Grandsons all love this book. A Fighter Jet is designed for air-to-air combat, with its main purpose being to establish Air superiority

over a battlefield. Fighters are designed for speed, maneuverability, and a smaller size than other combat aircraft. Of all airplanes these planes invoke the most drama and romance. The skill and courage of Jet Fighter pilots have been the foundation for many top selling movies and numerous books.

1. 44 Jet Fighter Illustrations are printed front and back of each page, on heavy weight, bright white paper

2. Each illustration includes a 2 paragraph write up of the history of that Jet Fighter

3. Crayons or color or water color pencils will work with this book, or a combination maybe gel pens for the planes and colored pencils for the sky, the sky area is large so would use a lot of ink.

I got this for my 5 year old son to keep him busy on the plane ride. When I got it I thought it was going to be much to be detailed for his little hands, but HOLY MOLY he focused so much and so hard on this it was just perfect for him and really kept his attention. We were able to visit an Air Force Base on our vacation and that just encouraged him even more to be meticulous about his coloring.

This is a good coloring book. A couple of planes I wished were in there that aren't but that's ok.

When I saw Dover Publishers, I knew this would be a winner. John did not let me down. You might think that military aircraft are not a good subject for a coloring book, but think again. A military jet might appear all gray, but when you look more closely at it, there are many colors and nuances that will keep a conscientious coloring maven busy for hours. The pictures are meticulously rendered. If

you get this book, look at the Navy Corsair II. John included the safety and the warning decals as well as other associated graphics. You, however, will need a knowledge of colors and markings that different countries use in order to create a totally authentic rendering, because John gives no indication of the associated hues. But the cover and back gives you details about half a dozen or so planes. I use Crayola and Rose Art pencils and have recently added some Prangs, Loews and Faber Castels to my pencil inventory. I have tried Prismacolor, but they tend to be too soft for me. If you are an adult into military subjects and you enjoy meticulous detail, this is a coloring book you will enjoy.

Bought this for my father and he really enjoys reading about the planes and bringing it to the senior center art times.

The teenage kid I bought this for has a problem with self-control and uses these sophisticated coloring books to help himself with that. This has good illustrations, I guess. I suppose there are also girls who fantasize about being pilots.

My son loves it, so I am happy with it.

Great Quality. Paper is white and sturdy - doesn't bleed through with markers, colored pencils or crayons - unlike most coloring books purchased in retail stores. Pictures are authentic Tanks and planes and fun to color. Our grandson loves Planes and Tanks, so these coloring books provide hours of enjoyment for him.
