# Watch Out! At Home (Watch Out! Books)

## **Synopsis**

When at home, kids are cautioned to avoid playing with sharp objects, to keep a safe distance from things cooking on the kitchen stove, to treat electrical appliances with caution, and generally to keep alert for potential household hazards. Clearly written in brief passages that are easy for younger children to absorb and understand, the Watch Out! series of color-illustrated books give kids safety advice that applies inside and outside the home, while they are traveling in a car, and when they are enjoying nature and having outdoor fun. The lessons illustrated in all Watch Out! books help children identify safety issues and avoid potentially dangerous situations. Appealing cartoon-style illustrations on every page.

(back cover) Most of the time, your home is safe. But keep an eye open for danger. Young children need to understand the different ways to keep safe when they're at home - whether using electricity, handling hot things, or taking medicine. With humorous artwork and simple text, this book also contains notes for teachers and parents to help them use the book most effectively. TEXT BY CLAIRE LLEWELLYN, ILLUSTRATED BY MIKE GORDON

My grandson is only 1, I will have to wait before I can read these to him. This whole series is very instructional, but more elementary level than Kindergarten level.

I purchased this book for the fire department I was with for use in the local schools that the firefighters visit regularly to teach fire, water and home safety. It is a great book for teaching young kids about safety. The kids enjoyed it and they retained a lot of the lessons.

Great for younger children. Also great for starting conversations with young children about safety.

we read it all the time, I think she's learning from it!

Good little book. It shows everything you can imagine in the home to be cautious of. Knives, hot appliances, outlets and cords, fires, medicine, poisonous chemicals, etc. Cute little book.

I bought this book for my niece. It's very informative! It covers all kinds of home safety topics for preschool age children to learn.

my little boy loves this book. if it got lost, i would buy again
