As a mom of a one year old boy who loves coloring in my free time for fun, to relax or relieve stress, I'm loving this book! #MomLife by papeterie bleu is a unique fun filled book for all the mother's out there who love coloring as I do. The pages are thick enough for both pencils, markers or gel pens and are one sided, which I think is always a great thing. Just make sure to have a page or two underneath so it does not bleed onto the next page if using markers or gel pens. Every single page is unique from the rest and the book itself has both simple and intricate well detailed pages for anyone to love. Some feature terrible two's, normalize breastfeeding, wine, potty training etc for me personally I love the, "little dude" and "normalize breastfeeding" as they both mean something to me as a new mother. Everyone will find something they can relate to though! This is the first book I've seen so far geared towards moms and really captures across the board what #momlife is about! The cover itself is hilarious, because all moms will instantly relate to the meaning! The first time I saw it I literally snickered and thought, "Yep, so true!" I really do think this is a great book and would be a great gift for all mom's out there, especially with mother's day coming up next month! And if you know of any moms currently expecting who also love to color this would be a great gift for them as well. I received this book apart of the preferred reviewer program for free in exchange for an honest review.

Mom Life: An Adult Coloring Book (Coloring Books for Adults for Stress Relief & Meditation & Relaxation & Zen Color Therapy) I was introduced to the adult coloring books by a colleague at work. The pages are very amusing and pertain to the mom's humorous take on children and childhood. For example, one page is entitled "Toddzilla Destroyer of the world" Another is "my little monsters". Some pages relate to lack of or decreased sleep. The great thing about this is that it is a big stress reliever. There is no right or wrong way to do the coloring and it is so relaxing. I have friends that have used this book in a group setting instead of the more expensive "paint and sip" sessions. This is a great tool to get away from it all while having some fun and being creative. I received this book at a reduced price in exchange for an unbiased and honest review.

I bought this coloring book so I would have something interesting to color while my little one colors. This is literally my life with a toddler summed up in 30 pages! I love the humorous take this book has on life with small children. This book gets me! Anyone clean up tub poop lately? Me! Do you breed non sleepers? Me! Do you survive on wine and coffee? Me! Way more fun to color than Dora the explorer.

Got it for my mom – really great cover!

Super cute and funny mom-centric coloring book. It's got a good mix of larger, easy to color designs, and the more intricate pages for those days when you need a heavy amount of stress-relief. You'll also get a good giggle from it-- like "tub poop happens" and the boxed wine labeled "mommys juice box". LOVE!

Hilarious! bought as a gift and all the moms at the party were gathered around flipping through it and laughing. Doesn't feel like a cheap coloring book either.

Great coloring book for the Moms in your life. Nice crisp pages, fun pictures.

Bought this book for the wife and she said she liked it a lot.
