Customer Reviews

It doesn't have the answers.

For the most part, this book is okish... The words are hard to learn when it comes time for a quiz, Exercise 5 is sometimes a writing activity which we don't do, and other times it is a Critical Reading/answer questions on the reading section. The questions it asks are confusing and almost always have more than one possible answer. The reading in this section is boring and it's hard to focus/remember what you're reading. Exercise 3 is impossible. It asks ridiculous questions. In the

first lesson for this section, it gives you six words which you are supposed to give the literal meanings based on the roots and prefixes it lists for you. Then, it asks "A step-by-step process is often called a _____ process, and a highway crew might use a _____ to smooth out a road." The answer to the second blank is "grader." Students don't know these words. Our vocabularies are not developed well enough to answer these questions. It takes a long time to do each section, and you feel like you haven't gotten anything out of it once you are finished. I definitely DO NOT recommend this to anyone. Use the Latin and Greek roots workbook by Prestwick House instead. They are much better.

all ok, the book is new, the book arrived in good conditions. The original description matches with the final product, thanks so much
