Customer Reviews

This story just keeps getting better! The story moves very quickly, taking over where Keelyn's story

left off. Reading this section brought the meat of the plot right to the front. I literally could not read this story fast enough, and then got mad at myself because it was over too soon. The plot continues in the next book with Ivy's story, and I can't wait to buy that and read it as well! The characters are especially well developed and feel real. The emotionalism is clearly explained and understandable. It was intense and consuming and I am all in on this series. It is so good, you should be prepared to read them one after the other.

I'm glad Mac got his hunk with Bella, it was rough in the beginning but now I can't wait for Ivy's story and what happens with the girl's mother.

Good book.

Good

The first book was about Keelyn this is about her sister Bella, and of course Mac. This book maybe dark for some readers (for myself I love the darker side) but there was something very traumatic that had happened to Bella, now she's pregnant, and as Mac is closing near he can scent her. With what her experience has left her, she wants Mac gone, but sometimes fate intervenes, what if she is his mate? Can he get close enough to find out?? You can read this as a stand alone, but to get a better picture you might want to read book one first. Received this arc for an honest review

I absolutely loved this book! Bella had her world messed up after her attack. Now her big sister is home with her fiancé. They bring his friends also. Mac sees Bella and knows she is his mate. Problem is her family hates shifters and he's a bear. As they grow closer he knows he needs to tell her. But things don't go according to plan. He finds out how much hate she has for shifters. I love the fact that Mac didn't give up. The love he confessed for her would make any woman melt. A lot of misunderstanding still needs to be revealed but it's going to be fun reading them. I received this book in exchange for an honest review.

Another great story in this series. I can't wait to read the other books in this series. I want book 4 as soon as it comes out. For now book 3 awaits and I am happy that I have at least one more book to read. Please keep writing these wonderful stories.

I read this authors previous book in this series and loved it so much that I had to read this one. They were both well written. I loved the storyline and characters they were in so many ways like a lot of people today with prudence against other races without, really knowing them. If you like books with a moral to it and sexy scenes you will love this one. I can't wait to read more of this series.
