Many people think of Oahu and remember the small parts they know best. A particular beach. A favorite restaurant. A hotel pool or a mountain pool. The feeling of standing at the USS Arizona Memorial. The view over the Pali Lookout. In this volume, the many parts of the island, the remarkable range of views, are brought together in one place. Readers can compare the windward beaches with those on the leeward side, can inspect the mountainsides and the broad valleys, and in many cases can see things none but the most experienced islander ever sees. It is hard to imagine a more thorough and accomplished pair of guides than master photographer Douglas Peebles and veteran island journalist Jan TenBruggencate. Peelbes takes to the air and ventures under the sea to capture the essence of the islands in ways few have ever seen them.

TenBruggencate has chased down stories on foot, by air and by boat on each of the inhabited islands and several of the uninhabited ones. Their collaboration reveals an island alive and vibrant.

Very pretty book! Made me want to go back!

Great book from our vacation, quality pictures. Looks great on the coffee table. Found places in there I was unable to visit while there

Great pictures and very informative.

Visited the Hawaiian Islands this year, and this book is full of photographs that take you right back to the beauty of the islands. It's like a photo album by a professional photographer.

Got this for my dad as a gift before his big Hawaii trip. It was very useful. He loves the book.

I had previously purchased a volume of the collection (Hawaii) on a trip to Oahu and I liked a lot: accurate descriptions and excellent pictures, although I seen the advertisements on the National Geographic guide! Some photos are quite old, very 80's, but for the editor's own admission are images collected in the time spent in the archipelago. After having visited other islands I wanted to complete the collection and so I chose .com. Ultimately, however, are satisfied, I miss only the volume of Maui that will buy non-I will have just visited. I suggest buying at all.

I live on the island of O'ahu. I have been living here for almost a year and have been to many of these locations. I would say there was virtually no "Photoshopping" of the pictures. O'ahu Hawaii is very beautiful.

I try to get a souvenir book from each place I visit and for the price, this one had the best photos and descriptions I was able to find. Gorgeous.
