Paediatric Dentistry

Synopsis

Paediatric Dentistry fourth edition combines in-depth theoretical information and practical clinical skills to produce a highly relevant resource for undergraduate dentistry students and indeed any clinician in the field. With a user-friendly design, this new edition continues the extensive use of key points, advice on further reading and directions to important evidence. As a result this text acts as both an essential study tool and a quick reference guide for the surgery. Paediatric Dentistry fourth edition contains a comprehensive survey of every important aspect in the field, including oral pathology, prevention and treatment of dental caries, and restorative dentistry. The book now offers over 550 illustrations, including clinical photographs and information-packed diagrams. Explanations of key clinical procedures are supported by step-by-step illustrations incorporating photographs, x-ray scans and line drawings. Updated throughout, a new chapter on safeguarding children has also been included in order to prepare the reader for the role they might play in protecting the health and wellbeing of vulnerable children. This reflects the child-centred approach that is integrated throughout the text.

Book Information

Paperback: 400 pages

Publisher: Oxford University Press; 4 edition (October 12, 2012)

Language: English

ISBN-10: 019957491X

ISBN-13: 978-0199574919

Product Dimensions: 10.8 x 0.8 x 8.6 inches

Shipping Weight: 2.6 pounds (View shipping rates and policies)

Customer Reviews

Review from previous edition: "Overall, this is an excellent text for anyone who treats children and it should be on your bookshelves... I would thoroughly recommend it." --Journal of Orthodontics "This is an excellent book, which I would thoroughly recommend not only for newly emerging specialist[s] in paediatric dentistry, but for all clinicians that see and treat children. It is a comprehensive book covering all aspects of paediatric dentistry. I find it an easy to read book, which makes it very useful

for quick reference in the surgery. I suggest it is well worth the money and should be on everyone's bookshelf." --Dental Update" When starting a paedodontics course and embarking on your first child patients, this is a life saver that will give you the knowledge and confidence you need.

Comprehensive and well illustrated, it starts from the basics and helps you graduate to more difficult subject areas, such as child orthodontics and minor surgery." -- customer review

Richard Welbury graduated from Newcastle University with BDS (Hons) in 1978 and MB BS in 1984. He then received a Ph.D. from Newcastle University on 'An evaluation of composite resins and glass polyalkenoate cements in Paediatric Dentistry'. In 1988 he was appointed Lecturer in Paediatric Dentistry at the University of Newcastle upon Tyne and in 1991 he took up the post of Regional Consultant in Paediatric Dentistry at Newcastle Dental Hospital. In 2001 he was appointed to the Chair of Paediatric Dentistry at the University of Glasgow Dental School. In 2001-2002 he was President of the British Society of Paediatric Dentistry and 2006-2008 President of the European Academy of Paediatric Dentistry. Between 2003-2006 he was Chairman of the Standing Advisory Committee in Paediatric Dentistry of the combined Royal Colleges. Marie Therese Hosey is Head of Department of Paediatric Dentistry at King's. Graduating in Glasgow in 1985, she was among the few dentists in the United Kingdom with training in administering general anaesthesia. Her master's thesis focused on methods of evaluating the efficacy of conscious sedation in children. She completed both her higher specialist training in paediatric dentistry and her doctorate, which studied the effects of liver disease and transplantation on the oral tissues, in Birmingham, England. She moved to Glasgow in 1998 where she was appointed Senior Lecturer and later, Reader in Paediatric Dentistry. She is Fellow of the Royal College of Surgeons of Glasgow and an examiner for the Intercollegiate Fellowship Specialty Examination in Paediatric Dentistry. She wrote the Royal College of Surgeons of England's clinical guideline on paediatric conscious sedation, and is a past council member of the Association of Dental Anaesthetists and the Dental Sedation Teachers Group. Professor Monty Duggal obtained his BDS from Patiala in 1983 and his MDS in Paediatric Dentistry in 1986. He then immigrated to the United Kingdom and obtained his FDSRCS from the Royal College of Surgeons of England and his PhD from Leeds University. He joined Leeds Dental Institute as a Junior Lecturer in 1989 and is currently Professor and Head of Paediatric Dentistry. Professor Duggal has published over 65 research papers in international journals. He has obtained research grants to the total value of one million pounds. His an internationally respected scientist and clinician and is invited all over the world to give talks and courses on Paediatric Dentistry.
