Great dictionary to help me with my Spanish

Trying to self-learn Spanish...at 65! Use it almost every day to clarify words/syntax/context.

Get your magnifying glass out cause the print is to small for these old eyes. Even my 19 year old

teacher said it was really small print.

The Migrant Program is satisfied with the purchase of these books for use in their program.

I love that this is a compact size yet has all the benefits of a larger one. Would purchase again and I recommend for those looking for a compact size.

I just received my book, and have to say I am disappointed. I actually bought several dictionaries and am sure this one won't be used often. The quality of the paper and print is poor. Within 5 minutes of looking up words, I had eyestrain and a headache. The paper is very gray and there is little contrast between the paper and the ink, making it difficult to read, even with my glasses. Also, the font is not reader friendly. As far as content, when you look up a word in Spanish, it does NOT give the phonetic pronunciation. So, if you do not already know how to pronounce words in Spanish or know where the natural accent is, you may get frustrated. While the actual translations may be fine, this book must also be rated on its readability and overall function. To me, it can define words perfectly but, if I am going to strain to see the words and get a headache within moments of using it, then it will probably set on a shelf somewhere and be of little use. There are so many other dictionaries out there, you may want to try another based on the couple of problems I have pointed out.

I have a housekeeping business and I employ Spanish speaking housekeepers. This particular dictionary has been instrumental in communicating with my team.

just what I needed for my Spanish 1 class at my college at a savings of more than 50%....
