Very useful book! I thought this was a great book to help my son get ready for my big interview with a company I been waiting along time to get into. It tells you how to behavior, some question to ask, not ask it really help you get ready. He was really nerves but after reading this book he was ready nothing was gone to stop him. Which was nice cause of all the confident the book gave him he got the job. Really worth recommending!

I purchased the kindle version in advance, knowing I wanted to read about the greatest entrepreneur of our lifetime during my 14 hour flight to India from NYC. I couldn't sleep the entire trip and almost finished the book already.. Fastest read I have experienced in a long time! A must read for entrepreneurs-young and old. I have followed his career since the Apple II days, but made my first Apple product purchase this year.. The iPad 2. What better device to enjoy this book, but from the genius himself! and maybe I will find my spiritual path during this 6 weeks in India. One word --WOW!!!!
