Wild At Heart Field Manual: A Personal Guide To Discover The Secret Of Your Masculine Soul

Synopsis

In his book *Wild at Heart*, author John Eldredge thrust a generation of men, young and old, toward a journey to recover true masculinity—the soul of a man as God designed him. If you've already begun the journey, you know how thrilling—and hard—it can be. So you may have longed for a tool to maximize the impact, a guide to show the way. Packed with new information and insights, the *Wild at Heart Field Manual* guides you along "the road less traveled." Filled with probing questions, creative exercises, and space to record personal field notes, this companion volume is designed to transition you from reading about the wild heart to living from it. For too long, the call of Christianity to men has evoked no higher goal, ultimately, than becoming a "nice guy." No wonder many men are bored to tears with church. The hero instinct has been trained out of them. But Eldredge invites men to come alive again, to find their great battle, adventure, and beauty. If you dare . . . keep reading. Your life will never be the same.

John and his wife, Stasi, live near Colorado Springs, Colorado.

Wild at Heart gets to the core of your being. You find out that you have been "wounded" as every other man has. You learn that God is angry that you have been hurt. His love is able to make us whole again. This book will challenge you to go back to your youth in order to identify where your

issues began. A must read. Please don't put it off.

The Book and video are based on presentation and group action. The Field Manual provides a place to journal and encourages the participant to write thoughts down before you forget them. I found the journal the most helpful addition to book and the video. If you are willing to take the time to log your feelings, thoughts, and emotions it is a good buy. Most book leave a vague positive or negative reaction. The manual encourages your interaction with the material. If you like to write, the field manual directions your writing to dealing with the material.

Husbands counselor semester this in finding feelings you keep hidden.

As advertised.

Great

My husband and I both read the companion book to this manual when we were going through some difficult times. It is VERY helpful. This book is more for the husband than the wife, but I highly recommend this to couples looking to understand one another further and/or going through relationship struggles.

Arrived quickly and in great condition. Love the author and the concepts.

This book really improved my marriage. It won't change a man overnight,so as a woman don't expect to much or you'll nevnever be happy. However it will help a man understand a woman better, on what not to do and why. Even if your bf,or husband has a lusting issue or pornigraphy problems, if your man is open minded abs has a will,it WILL help.
