St Paul's Cathedral: 1,400 Years At The Heart Of London

Synopsis

Sir Christopher Wren's St Paul's, built after the Fire of London of 1666, has become the City's most familiar landmark, its dome with the ball and cross above it symbolic of London's steadfastness down the centuries and its endurance during the Second World War. When it was newly completed, in the early eighteenth century, it seemed breathtaking and unlike any other cathedral or church in Britain. Today's building is not the first to occupy the site, for this has been a place of Christian worship for 1,400 years. The medieval Cathedral, with a tower and spire soaring above the city, was at the time one of the wonders of Europe. Beautifully illustrated with rare items from city and cathedral archives, and glorious colour photography of today's building and its treasures, St Paul's Cathedral: 1,400 Years at the Heart of London tells of St Paul's fascinating history.

Dr Ann Saunders is Fellow of the Society of Antiquaries and Honorary Fellow of University College, London, former Editor of the Costume Society and Editor of the London Topographical Society. Her publications include 'The Art and Architecture of London: An Illustrated Guide' and a history of the Merchant Taylor's Society.

This a brilliant and highly readable overview of one of Wrens masterpieces. There are more indepth history books on St. Pauls but for the money it's real value. For those who love London as much as I do, buy this book and be prepared do relive your visit. Or buy it for your favorite anglophile.

Wonderful read and God photography.

If you go to St Paul's and wish to spend your time looking and taking it all in.....then this book will capture it all for you. It has great photos that most can't get and has all the details.

Well written and researched book with wonderful photos of the magnificent cathedral.
