Polar Animals (Scholastic Reader, Level 1)

Synopsis

Fabulous photographs, eye-catching design, and simple rhyming text constitute this Level 1 reader about the fascinating lives of polar animals! Hardcover, foil, and an unbeatable price!"I'm a seal. See my smooth skin. My flippers help me steer and swim." Children learn about polar bears, penguins, walruses, arctic foxes, seals, and snow animals. The text is written in easy-to-read rhymes and is illustrated with irresistible photographs. Three pages of fun learning activities are designed to both challenge and entertain new readers.

Best Sellers Rank: #445,360 in Books (See Top 100 in Books) #72 in [Books > Children's Books > Geography & Cultures > Explore the World > Polar Regions](#) #4413 in [Books > Children's Books > Literature & Fiction > Chapter Books & Readers > Beginner Readers](#) #15201 in [Books > Children's Books > Animals](#)

Age Range: 4 - 8 years

Grade Level: Preschool - 3

Customer Reviews

cute and great for my first grade daughter to be able to read up on a current interest

This book is very cute, my baby enjoys looking at the beautiful pictures of real animals. It is also very good for older children who are starting to read.

Good early reader!

My wife uses these books in her first grade classroom and the kids love them. Recommended for young or starting readers.

Students love this

This book isn't anything to jump up and down about, but it was just fine for my little reader to read on her own. It's a step one, and just a sentence or two per page. They also rhyme which is not really necessary but perhaps does help some early readers. It's a fine introduction to polar animals, covering the polar bear, snowy owl, arctic fox, penguin, walrus, and seal. It doesn't teach very much per animal but the photos are fabulous. Really cute ones. There's also a helpful review at the end of facts and key words. I would have given it five stars if they'd managed to slip in a couple more facts. As it is, it is more of an addition to language arts rather than science. Or maybe a nice jumping off point for something more in depth.
