I first borrowed this book from the library and it was love at first read. I had to have a copy for my own personal library. The recipes are simply delicious. Did I also mention simple? A must read, make and eat.

So many great recipes. I love this book. I've made several main meals and a lot of the desserts! I purchased this book for my mom as a Christmas gift, as she loves apples and wanted to try some new recipes.

I tried a lot of the recipes in this cookbook and found most of them to be bland-tasting and non exciting in appearance. One was even awful tasting: the apple-zucchini soup! There was one surprising result. The black bean soup was excellent and I've added to my tried and true recipe book.

love apple book was on time.

Great!

Superb apple-centric cookbook! Easy to follow directions, great recipes, wonderfully delicious dishes. If you love apples, you must have this book in your kitchen. I highly recommend this cookbook.

We have really enjoyed The Apple Cookbook. So many recipes that I have wanted to try & will do so during the holidays.

It's just the right cookbook for this time of the year! Apples of all kinds are available. I make apple tarts from a recipe in this book. My family loved them!
